MEMORANDUM FOR: Project Director

SUBJECT : Testing of System Four

1. Attached is a list of laboratory and flight tests required for the System Four prototype equipment.

2. Also listed in the attachment is a list of pre-flight bench tests and pre-flight tests that should be performed by field maintenance groups. Ramo-Wooldridge must supply the equipment needed for these tests whenever standard test equipment is not commercially usable.

3. It is recommended that:

a. Ramo-Wooldridge be asked to comply with the list of laboratory and flight tests.

b. Ramo-Wooldridge submit a proposal to cover the equipment needed in the list of pre-flight bench tests and pre-flight tests.
